01 GLOBAL EVENT

RIIFO Global Conference 2023 completed with great success!

April 27, 2023

RIIFO Global Conference 2023 ended on a high note at the end of April.

A diverse group of business partners were brought together to discuss the latest trends and how to create more value for the global piping industry. Hosted by RIIFO, an international piping solution supplier, the conference featured a series of activities like panel discussions, factory tours, and networking events. Over 100 attendees including wholesalers, contractors, developers, and distributors joined from the piping and related industries.

The conference focused on the theme of "FUSION," with a particular emphasis on integrating, collaborating, and differentiating to make greater things happen for different piping markets all over the world. Over the course of the five-day event, attendees heard from people in the field and had the opportunity to network with fellow professionals. Also discussing how to create added value for local piping markets by fully communicating with each other.

- Splendid moments during the event

▼ Mr. Victor Xu was giving a welcoming remark

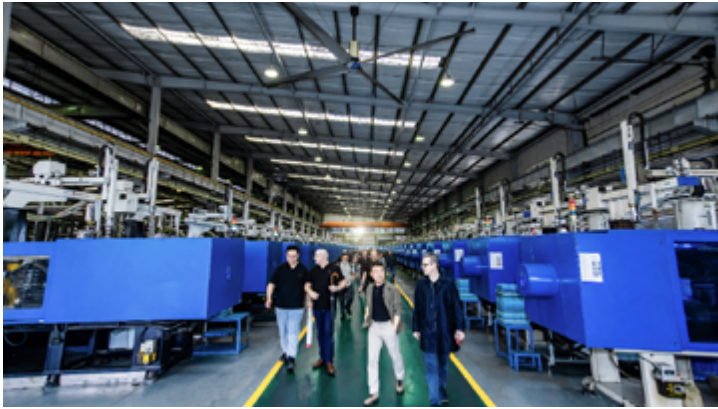

Among the highlights of the conference were several keynote speeches. Mr. Victor Xu, the CEO of RIIFO, delivered a powerful address on the importance of following four core values of the company. These include keeping promises, customer first, shared value, and long-termism.

Meanwhile, Mr. Jason Cheng, the General Manager of RIIFO Overseas Business Department, proposed that RIIFO will keep creating greater value by providing the best products and services as always and further pushing our globalization strategy from “local service for locals” to “locally made for locals”.

▲ Mr. Jason Cheng is giving a speech themed “To Create Better Value”

• RIIFO factory tour

In addition to the conference, all attendees also had a RIIFO factory tour, witnessing how RIIFO strives to deliver better piping products to clients through the aspects of R&D, manufacturing, and quality control.

Overall, the RIIFO Global Conference proved to be an engaging and thought-provoking event. As the world continues to grapple with pressing economic challenges, events like this are more important than ever for RIIFO to bring our business partners together, looking for ways to create better value for all global customers and driving meaningful progress towards a better future.

02 GLOBAL SUBSIDIARIES' ACTIVITIES

I'm really looking forward to a new challenge with RIIFO, supporting the UK team and delivering a first class service to all our customers

ANDREW JONES

Operations & Logistics
Manager

Andrew Jones joined
RIIFO UK as our
Operations & Logistics
Manager

February 6, 2023

RIIFO UK and the global RIIFO family are delighted to welcome Andrew Jones to the team as our Operations & Logistics Manager.

Message from Simon Marklew: "Andy will play a vital part at RIIFO UK supporting customers and controlling stock to ensure service is at the forefront of our business, good luck Andy, I'm sure you will be a huge success. "

An amazing football match was held in Peru!

February 11, 2023

Shoot! And Score!

At LAWN CLUB TENIS-JESUS MARIA, a highly anticipated football match arranged by EMEMSA-RIIFO came to an end on February 11th. Over 30 players from local gas piping business partners brought out a fantastic game in a very good atmosphere. That was a great chance to strengthen the tie with RIIFO business partners and boost clients' confidence and trust on RIIFO.

RIIFO UK at UK Futurebuild 2023

February 6, 2023

RIIFO UK showcased its comprehensive Multilayer Plumbing System and Underfloor Heating System at the highly anticipated UK Futurebuild 2023 event. The piping solutions garnered significant attention from industry professionals and visitors, demonstrating RIIFO UK's commitment to driving sustainable construction practices. To date, Multilayer Plumbing System including Multilayer Pipes and F5 Press Fittings as a RIIFO UK hot-selling product system has been widely used for many construction projects.

RIIFO booth at ISH 2023

RIIFO Showcases Innovative Plumbing Solutions at ISH Exhibition

March 8, 2023

RIIFO, a leading manufacturer of plumbing systems, recently participated in the International Sanitation and Heating (ISH) exhibition held in Frankfurt, Germany. The four-day event was attended by over 200,000 visitors from 150 countries, making it one of the largest exhibitions of its kind.

At the exhibition, RIIFO showcased its latest range of innovative plumbing solutions, including pipe fittings, valves, and accessories. The products on display demonstrated RIIFO's commitment to sustainability, energy efficiency, and high-quality design.

RIIFO Multilayer Plumbing System aroused the interest of many visitors

Visitors to the RIIFO booth were impressed by the company's comprehensive piping systems, especially RIIFO Multilayer Piping System. Multilayer Pipes in different sizes are available at RIIFO, providing multiple options for clients to use in different applications. With the advantages of both plastic and metal, RIIFO Multilayer Pipes certified by DVGW, ACS, AENOR and more are durable enough to work under different working conditions. As for fittings, RIIFO launched Multiprofile Press Fitting (U-TH-H-F-VX). With three O-rings, stainless-steel sleeves, and Leak Before Press (LBP), the design of this fitting is not only user-friendly but also reliable in preventing leakage. The piping systems displayed at the RIIFO booth aroused the interest of thousands of visitors over five days.

Commenting on RIIFO's participation in the exhibition, Gert Schuermans, RIIFO EU General Manager, said, "ISH is one of the most important events in the plumbing industry, and we are thrilled to have been a part of it. It was a great opportunity for us to showcase our latest innovations and connect with customers and partners from around the world."

The exhibition was a resounding success for RIIFO, with the company receiving positive feedback from customers and partners alike. With its focus on innovation, sustainability, and design, RIIFO is well-positioned to continue leading the way in the plumbing industry for years to come.

RIIFO Indonesia walked into the college

May 12, 2023

On that day, Warsono, the representative from RIIFO Indonesia walked into the university campus, bringing with them an abundance of knowledge and expertise to share with eager attendees. The lecture, attended by over 180 students, showcased the immense potential of the Air Conditioning Multilayer Piping System as a game-changer in the industry.

In an effort to promote advancements in the field of air conditioning systems, RIIFO Indonesia, a leading provider of innovative piping solutions, conducted a highly anticipated lecture at Politeknik Indramayu on the groundbreaking Air Conditioning Multilayer Piping System. This lecture aimed to introduce students and faculty members to the latest trends and technologies shaping the air conditioning industry.

RIIFO Mexico cooperated with APLOMEX Plumbing School

May 25, 2023

RIIFO Mexico proudly participated in the inauguration of the APLOMEX Plumbing School on May 25th. The entire team was privileged to deliver the first RIIFO PP-R Plumbing System training to this esteemed institution. Marco Millan, General Manager of RIIFO Mexico, said they would continue delivering their expertise and innovative solutions and expanding their collaboration with plumbers.

RIIFO Mexico at Ferrehow Expo 2023

May 28, 2023

It was the second time for RIIFO Mexico to take part in the Ferrehow Expo. For RIIFO Mexico, it was a great opportunity to their highly cost-effective PP-R Plumbing System and Gas Piping System to more contractors, distributors and dealers.

03 ADM PLATINUM BAY

Located in the heart of the sunset coastline at Kamala Beach, ADM Platinum Bay is the perfect property for clients looking to make the most of Phuket's resort lifestyle.

To make sure the project runs smoothly, a number of issues need to be addressed in the piping system:

1. Ensure that the project can use top quality materials to match the level of the project.
2. Ensure that these materials can be delivered to site on time.
3. Ensure the longevity and quality of these materials.

RIIFO provided RIIFO PPR hot water pipe solutions for the project.

RIIFO PPR pipes and fittings comply with the German DIN standard and are certified by the German DVGW authority. Additionally, the hygiene level of RIIFO PPR materials meets the requirements of NSF61 from the United States and is certified lead-free, ensuring that the quality used in the project meets the highest international standards. The RIIFO PN20 hot water pipe is suitable for all types of hot water requirements, such as residences and high-end hotels. It meets ISO requirements and can be used continuously for at least 50 years at a high temperature of 70 degrees Celsius.

In terms of distribution, RIIFO arranges door-to-door delivery according to the progress of the project to ensure continuous smooth operation. Delivery on demand, reduces the risk of collision damage when materials are left on site, while also reducing overall management costs for the project. In regards to a quality guarantee, RIIFO offers a 25-year warranty for the entire system connected with RIIFO pipes and fittings. To double the security,

RIIFO has applied for product liability insurance from ALLIANZ, the world's largest insurance company, for all piping products, with a worldwide coverage of 10 million USD.

Currently, RIIFO PPR has been installed in the ADM project and has become an important hidden part of the quality assurance process.
